

ZAMEER SIDDIQUE

Full Stack & Mobile App Developer

Email: 786zameer6@gmail.com

Mobile: +91 8104610491

GitHub: <https://github.com/ZameerSidd>

Targeting full-time opportunities in the UAE and Gulf region as a Full Stack, Flutter, Android, or iOS Developer, leveraging expertise in cross-platform mobile development, back-end API engineering, and scalable web solutions to deliver high-performance, user-centric applications that drive business efficiency and innovation.

PROFILE SUMMARY

- ❖ A competent professional with **over 4 years of professional experience** in **Flutter** and **Android development**, delivering enterprise-grade mobile and web applications for diverse business domains.
- ❖ Currently working as **Full Stack Developer at ByVal Technologies**, liable for end-to-end design, development, and maintenance of internal enterprise applications for **Brinks Pvt. Ltd.**
- ❖ Proficient in building cross-platform mobile applications with **Flutter**, integrated with robust **back-end APIs** using **.NET Core**.
- ❖ Skilled in developing secure, scalable, and efficient database solutions using **SQL Server**, **PostgreSQL**, and **Firebase**.
- ❖ Delivered mission-critical applications including **ATM_CRM**, **CIT**, & **BGS**, supporting logistics, secure asset tracking, & route-based operations.
- ❖ Expertise in API design, integration, and documentation using tools like **Swagger** and **Postman**, ensuring smooth collaboration between development and operations teams.
- ❖ Engineered high-transaction enterprise applications **managing over 50,000 daily media uploads** and **10,000+ secure data entries** with **zero error tolerance** in critical banking and asset-tracking operations.
- ❖ Optimized API performance and data synchronization under low-connectivity conditions, **ensuring 99.9% uptime** and seamless operational continuity across multi-location deployments.
- ❖ Expertise in implementing dynamic **UI/UX elements, animations**, and **custom widgets** for engaging and user-friendly interfaces.
- ❖ Proven track record in **debugging, optimizing application performance**, & ensuring **minimal downtime** in high-volume transaction environments.
- ❖ **Collaborative team player** with a focus on delivering robust, secure, and high-quality applications within deadlines.

CORE COMPETENCIES

- Mobile Application Development

➤ UI/UX Implementation

➤ Performance Optimization
- Cross-Platform Development

➤ Agile & Scrum Methodologies

➤ Collaboration & Teamwork
- API Integration & Documentation

➤ Problem-Solving & Debugging

➤ Application Testing & Quality Assurance

SOFT SKILLS

TECHNICAL SKILLS

- **Mobile App Development:** Flutter, Android, Dart, Java

➤ **Backend Development:** .NET Core, Node.js (Express), Python

➤ **Databases:** SQL Server, PostgreSQL, Firebase

➤ **Web Technologies:** JavaScript

➤ **Version Control:** Git, SVN

➤ **Tools & Platforms:** Jira, Swagger, Postman

WORK EXPERIENCE

ByVal Technologies India Pvt. Ltd., Coimbatore

Full Stack Developer

Oct 2023 – Present

- ❖ Developing and maintaining internal enterprise mobile applications for Brinks Pvt. Ltd., optimizing workflow for logistics and secure asset management.
- ❖ Implementing cross-platform mobile solutions using Flutter integrated with .NET Core APIs and SQL Server databases.
- ❖ Designing and maintaining back-end services ensuring secure and efficient data transactions.
- ❖ Integrating large media upload management with optimized syncing for unstable network conditions.
- ❖ Collaborating with operations teams to ensure application features align with daily business requirements.

Projects:

ATM CRM

Mar 2024 – Present

- ❖ Task-based route assignment app for ATM cash refilling operations. Integrated back-end APIs to handle large-scale media uploads and ensure smooth syncing under poor networks.

BGS (Brinks Gold & Silver)

Nov 2024 – Mar 2025

- ❖ QR-code-based vault asset management system tracking high-value gold and silver bars with structured digital mapping and zero asset mismatch incidents.

CIT (Cash In Transact)

Dec 2023 – Oct 2024

- ❖ Secure route-based logistics app for cash, cheques, and DDs with high-performance APIs ensuring fast data syncing to SQL Server back-end.

Achievements:

- ❖ Successfully developed and maintained three critical enterprise applications (ATM_CRM, CIT, BGS) powering Brinks’ operations across India.
- ❖ Managed 900–1200 daily route creations in CIT and 200–300 in ATM_CRM with minimal error rates.
- ❖ Built robust media syncing APIs to handle high-frequency uploads of images, videos, and metadata under poor network conditions.
- ❖ Designed and deployed QR-code–based asset tracking in BGS, enabling real-time scanning and zero asset mismatch incidents.
- ❖ Achieved seamless synchronization of approximately 50,000 images per day and processed over 10,000 data entries without errors.

Orient Technologies, Mumbai (Andheri East)

Dec 2021 – Sep 2023

Software Developer

- ❖ Designed and developed Flutter mobile and web applications with advanced UI animations and custom widgets.
- ❖ Developed RESTful APIs ensuring scalability, security, and efficiency.
- ❖ Created comprehensive API documentation using Swagger and Postman for cross-team collaboration.
- ❖ Debugged and optimized Android and Flutter applications to ensure performance and reliability.
- ❖ Worked within Agile development methodology to meet tight deadlines.

Achievements:

- ❖ Delivered multiple Android and Flutter applications for enterprise clients, achieving faster deployment cycles.
- ❖ Reduced reported defects by 70% through proactive testing and code optimization.
- ❖ Improved API response times by 20% via back-end query optimization and caching mechanisms.

Simple Inc., Mumbai

Jun 2021 – Dec 2021

Junior Java Developer

- ❖ Developed Android applications using Java, integrating Firebase for notifications and CRUD operations.
- ❖ Implemented Firebase Store for real-time data storage and retrieval.
- ❖ Applied OOP principles to design modular and reusable code components.
- ❖ Conducted troubleshooting and bug fixes to improve app stability.

WEB APPLICATION PROJECTS

- ❖ **Securens**
 - **Description:** Developed and deployed security systems for client sites through Securens Systems Pvt. Ltd., leveraging advanced monitoring technologies to proactively deter and prevent criminal activities before they occur.
 - **PlayStore Link:** [Click Here](#)
 - **Web Link:** [Click Here](#)
- ❖ **Wealth Paver**
 - **Description:** A fintech platform built to democratize wealth management for a diverse user base, including individuals, families, and students.
 - **Link:** [Click Here](#)
- ❖ **HTL International**
 - **Description:** Led the conceptualization and execution of upscale furniture collections under the HTL International banner, emphasizing quality, design innovation, and global distribution.
 - **Link:** [Click Here](#)

EDUCATION

- ❖ B.Sc. IT, Siddharth College | 2023
- ❖ Diploma, A.I Abdul Razzak Kalsekar Polytechnic | 2021
